About Me

I am a recent BCA graduate with a strong passion for mobile app development and backend systems. I work with Flutter, Firebase, and multiple programming languages to build seamless and efficient applications. I enjoy solving real-world problems and creating scalable solutions that deliver great user experiences.

Education

10TH

Shree Kasturba U.B. Vidhyalaya , Motipaniyali
March - 2020

12TH

Shree Santramnath Vishyasankul Kukad
March - 2022

BCA - Bachelor of Computer Applications

Smt. L.P. Savani BCA College Palitana
2025

Skills

Team Collaboration

Communication Skills

Time Management

Quick Learning Ability

Problem-Solving

My Projects

2024

1. College Management App (Flutter + Firebase)

Created For : Satuababa BCA College

- Developed a fully functional college management system featuring attendance tracking, student-teacher chat, timetable, ranker module, leave management, study materials, and notifications using Firebase Cloud Messaging. Integrated Firebase Authentication, Firestore, and Realtime Database for seamless data flow.

Fine-Tracker App

2025

- Fine Tracker is a lightweight open-source personal expense tracking app focused on simplicity and great user experience. It stores data offline on the device for privacy and speed, with optional internet use only for currency exchange rates. Fully open-source and easy to customize.
